Life will be best
Iodine value test
Xray it's the best

Packaged Drinking Water or Bottled water Plant

In this plant, we process borewell water and we reduce the TDS(Total Dissolved Solid) in borewell water with the help of RO process i.e Reverse Osmosis Process. Packaged drinking water does not contains any minerals.

Process of Mineral Felix Water

- Identify source of raw water
- Store raw water
- Water treatment system
 - Reverse Osmosis
 - Sand filtration
- Testing of water
- Packing and bottling
